

M-LINEAR-SW FIXTURE

LINEAR LED LIGHTING SOLUTIONS

Our M-LINEAR-SW Fixture is a compact anodized aluminum extrusion that can be used for a variety of applications along with any of our M-LIGHT linear LED lighting configurations. The M-LINEAR-SW Fixture features three-way cable guides permitting cables to be routed to either side or the bottom, end caps allowing for seamless end-to-end runs of LEDs, and mounting clips providing the ability to mount in wood or other materials without the need for reveals.
